1. KeyNavigator ACH

KeyNavigator’s ACH service enables authorized users to initiate electronic debit and credit transactions. You can either create these transactions manually or import transaction information into the ACH module. Our easy to use templates allow you to create, store, and approve payments easily for payment types including payroll, tax and vendor payments. If you have proprietary software capable of creating compatible ACH files, you can upload the file directly into the KeyNavigator.

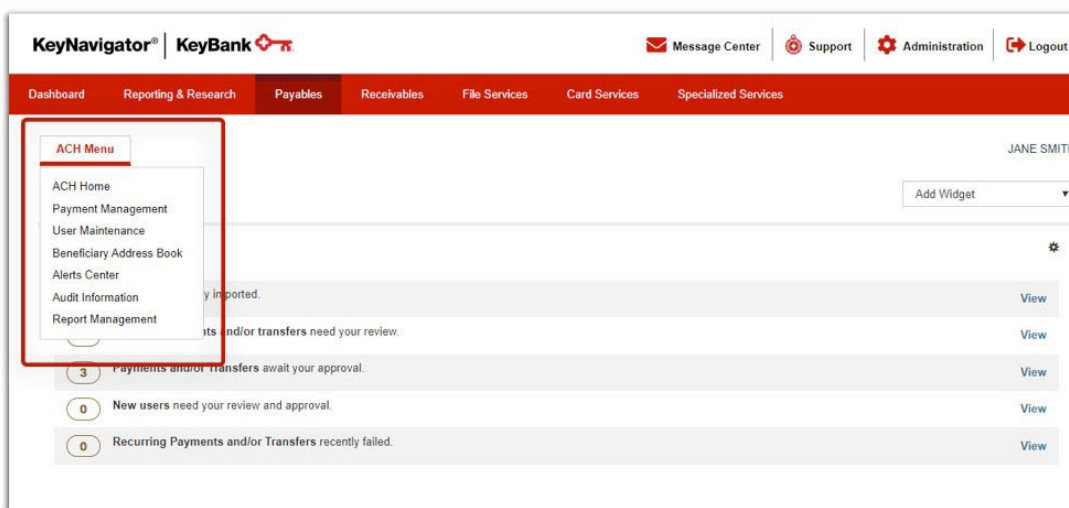

- From the **Business & Institutions** tab of www.key.com, log into **KeyNavigator**.
- Choose the **Payables** section of KeyNavigator and select **ACH**.

1.1 ACH Home

From the ACH Home page, you are able to customize your personal experience and navigate to any other function using the menus.

- Click on the **ACH Menu** to navigate to other ACH functions.

- Add additional widgets by clicking on the **Add Widget** drop down. From here, you can add as many widgets as you like to facilitate your business. Please note: newly added widgets are added to the bottom of the widget listing.

The screenshot shows the 'ACH Home' dashboard. A 'Notifications' widget is displayed with a list of items: 'Files were recently imported.' (6), 'Recurring Payments recently failed.' (4), 'New users need your review and approval.' (2), 'Rejected payments need your review.' (0), 'Payments await your approval.' (9), and 'Payment Templates await your approval.' (22). Each item has a 'View' link. An 'Add Widget' dropdown menu is open, showing options like 'Add Widget', 'Alerts Center', 'Audit Information', 'Beneficiary Address Book', 'Download', 'File Import History', 'Import Map', 'Notifications', 'Payments List View', 'Recurring Payment Exceptions', 'Reports Management', 'Template List View', and 'User Maintenance'.

- Click and drag any of the widgets to your desired order
- Click the gear icon and choose **resize** to show the widgets side-by-side. You may also **delete** widgets from here as well.

The screenshot shows the 'Payments List View' widget. It includes a 'Remove' and 'Resize' control. Below the control, it says 'Max display of info: 400 days'. There are buttons for 'Add a New Payment', 'Quick Entry', and 'File Import'. A filter dropdown is set to 'Select fields'. The table shows three payment records:

<input type="checkbox"/>	Actions	From Account	Beneficiary	Amount	Value Date	Status	Payment Type	Approval Cutoff
<input type="checkbox"/>	View	1010101010101 ①	MULTI	7,551.18	02/01/2019	Entered	Payroll	02/01/2019 20:00 EST
<input type="checkbox"/>	View	2000202020202 ①	ABC Supply Company	5,555.00	02/01/2019	Approved	Corporate/Vendor Payments	01/31/2019 20:00 EST
<input type="checkbox"/>	View	3000300030003 ①	XYZ Services Inc	2,500.00	02/01/2019	Needs Repair	Corporate Collections	01/31/2019 20:00 EST

At the bottom, it says 'Viewing 1-3 of 3 records' and 'Display 50 per page Page 1 of 1'.

1.2 Notifications

- From the Notifications section, you may view additional information on recurring and rejected payments, payments and templates needing approval, and imported files.

ACH Home Add Widget

- 0 Payment and Template Background being processed. [View](#)

2. Payments

2.1 Payments List View

The **Payments List View** widget can be reached via ACH Home or the Payment Management section from the ACH Menu. You will find many options for managing your payments and customizing your payment list views.

Within the Payments List View widget, the default view is ‘Upcoming Payments’ which will display all ACH payments, in all statuses. The other View options available include:

- All Payments (Default)
- Approval Window Passed
- Approved Payments
- Future Dated Payments
- Imported Payments
- My Payments
- Payments needing Repair
- Payments Requiring Approval
- Payments Requiring My Approval
- Possible Duplicate Payments
- Rejected Payments
- Two Week Look Back
- Upcoming Payments

To change your default view, click the dropdown menu, select your desired view then, click **Set As Default** button.

Display 50 per page

You can also manage the fields within the **Payments List View** widget:

- Click on the **gear icon** after the last column header, click the checkboxes to select which columns that you want to see in each view. Click **Update**.
- Once the add columns window is closed, you can drag and drop your selected columns in the list to change their order. You may need to use the scroll bar at the bottom of the widget to see additional columns.
- Select **Save View** in the view dropdown to save your configuration. You will also choose to name this view before saving.
- You may save this new view as your default view by clicking the **Set As Default** button.

Along the bottom of the Payments List View widget are action buttons that allow you to Approve, Unapprove, Reject or Delete ACH payments shown in your list. The buttons you see are dependent on your role/access. At the top of the widget, here are additional links that allow you to go to other functions including Add a New Payment and Quick Entry.

2.2 Template List View

The **Template List View** widget can be reached via ACH Home or the Payment Management section from the ACH Menu. You will find many options for managing your templates and customizing your template list views.

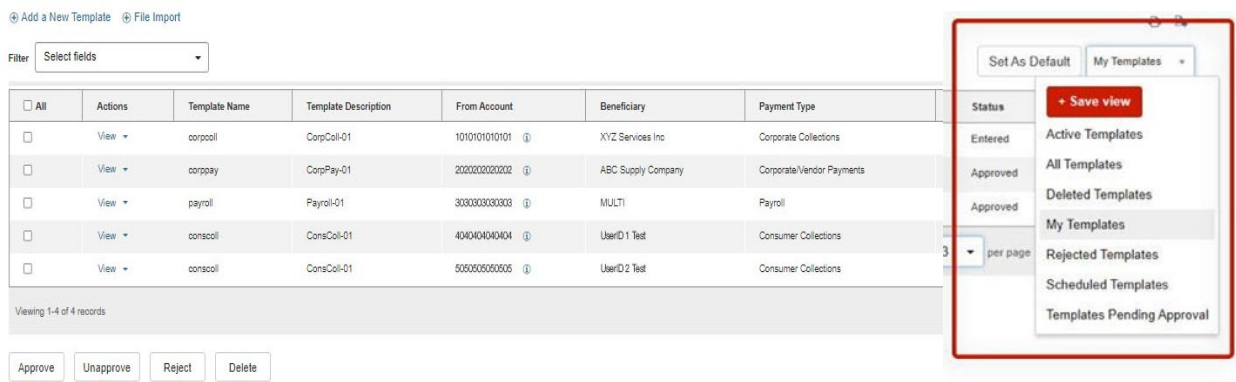

Within the Template List View widget, the default view is 'Active Templates' which will display all active and approved templates. The other View options available include:

- All Templates
- Deleted Templates
- My Templates
- Rejected Templates
- Scheduled Templates
- Templates Pending Approval

To change your default view, click the dropdown menu, select your desired view then, click **Set As Default** button.

Template List View

You can also manage the fields within the **Template List View** widget:

- Click on the **gear icon** after the last column header, click the checkboxes to select which columns that you want to see in each view. Click **Update**.
- Once the add columns window is closed, you can drag and drop your selected columns in the list to change their order. You may need to use the scroll bar at the bottom of the widget to see additional columns.
- Select **Save View** in the view dropdown to save your configuration. You will also choose to name this view before saving.
- You may save this new view as your default view by clicking the **Set As Default** button.

Along the bottom of the Template List View widget are action buttons that allow you to Approve, Unapprove, Reject or Delete ACH templates shown in your list. The buttons you see are dependent on your role/access. At the top of the widget, here are additional links that allow you to go to other functions including Add a New Template and File Import.

Viewing 1-3 of 3 records Display per page

- From the **Add a Payment** screen, select your **Payment Type** from the drop down box.

- The **Payment Type** selected will determine the information you need to complete in the next section. In the example below, Cash Concentration / Disbursement has been selected. Once you select your Payment Type, click **Continue**.
- Required information is indicated with a red asterisk. The **Value Date** (a.k.a. the effective date) is the date the payment will credit or debit the beneficiary; the payment may be sent for processing a day in advance. Use optional fields such as **Batch Description**, **Descriptive Date**, **Company Discretionary Data** or **Internal Comments** for your reference.

- Complete the **Beneficiary Section** with the information required, including: Payee Name, Account Number and Bank Code (or ABA, Swift or Routing Number).
- Based on payment type, **Addenda** can be added using a field that will count characters and provide the number remaining characters available.
- Continue to add beneficiaries until your payment is complete.

The screenshot displays the 'Beneficiary Information' form. It includes fields for Name, Bank Code, Account Number, Account Type, and Amount. Below these are fields for ID, Discretionary Data, and Internal Comment. There are also checkboxes for 'Create Prenote' and 'Hold'. A 'Beneficiary Exclusion Dates' section is visible. At the bottom, there are buttons for 'Add Another Beneficiary', 'Clear Beneficiary Info', and 'Delete'. A summary bar shows '500.00 USD to 2 Beneficiaries on 12 Jun 2020' with options to 'Save this payment as a template for future use', 'Submit', 'Save for Later', and 'Cancel'.

6. Alerts Center

The Alerts Center is available via the ACH Menu and the individual widgets can be added to the ACH Home page via the Add Widget dropdown.

6.1 Recipients & Recipient Groups

- The Recipients and Recipient Group widgets display the existing recipients for your company. You may modify, delete or view the existing contacts.
- Views can be changed utilizing the drop-down box on the right and you may add/delete columns by clicking the gear icon.
- Click the Filter drop down to create a custom view by selecting the desired fields.
- Views may be printed or exported.
- To create a new recipient, select **Insert** at the top of the Recipient widget.
- Enter the name and email address for your new recipient. Additional emails may be added by selecting the **Add Another Contact Method**.

Once you have created recipients, you may add them to **Recipient Groups**.

- Create a new recipient group by clicking **Insert** at the top of the Recipient Group widget. Begin by entering a **Group** name.
- Or click Modify from Actions for an existing **Group** name
- Add recipients by searching by name in the **Recipient Name** field. Simply start typing their name in the box.
- Click **Save** when you have entered all the desired recipients.

6.2 Alerts

- The Alerts widget will display the existing alerts for your company. You may modify, delete or view the existing alerts.
- Views can be changed utilizing the drop-down box on the right and you may add/delete columns by clicking the gear icon.

- Click the Filter drop down to create a custom view by selecting the desired fields.
- Views may be printed or exported.
- To create a new alert, select **Add New Alert** at the top of the Alerts widget.

- Enter the desired name in the **Alert Name** field. Select a name that is meaningful to you.
- Next, select the **Alert Group** from Payments and Transfers or Administration (based on your permissions).
- The **Alert Types** drop down menu will populate based on the alert group selected.
- The **Alert Subject Line** will populate based on the alert type selected. You may create your own meaningful **Alert Subject Line** in that field.
- Click **Save** when complete.

8. Reports Management

The Reports Management widget is available via the **ACH Menu** and the widgets can be added to the ACH Home page via the **Add Widget** dropdown.

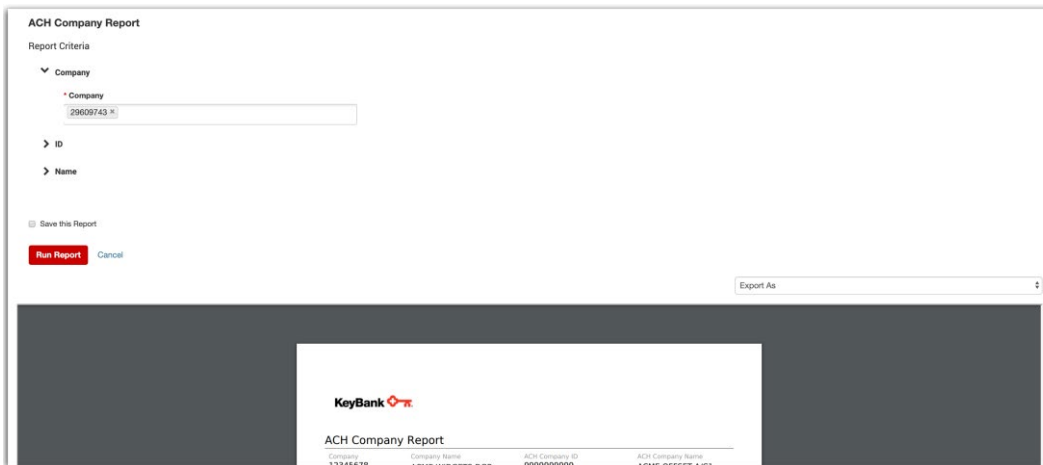

The following reports are available in the Reports Management Widget:

- ACH Company Report
- Company Details
- Roles
- User Permission from Roles
- Template Detail Report
- Payment Detail Report

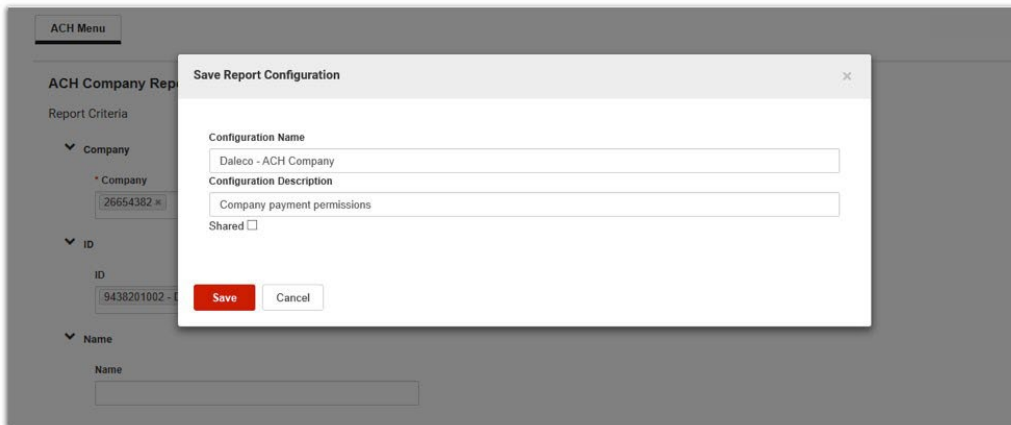

For each of these reports, select View from the **Actions** column.

Actions	Report Name	Configuration Name	Public	Report Group	Report Subgroup
View	ACH Company Report			Payments	Administrative
View	Company Details			Admin	
View	Roles			Admin	
View	Template Detail Report			Payments	Payments
View	Payment Detail Report			Payments	Payments

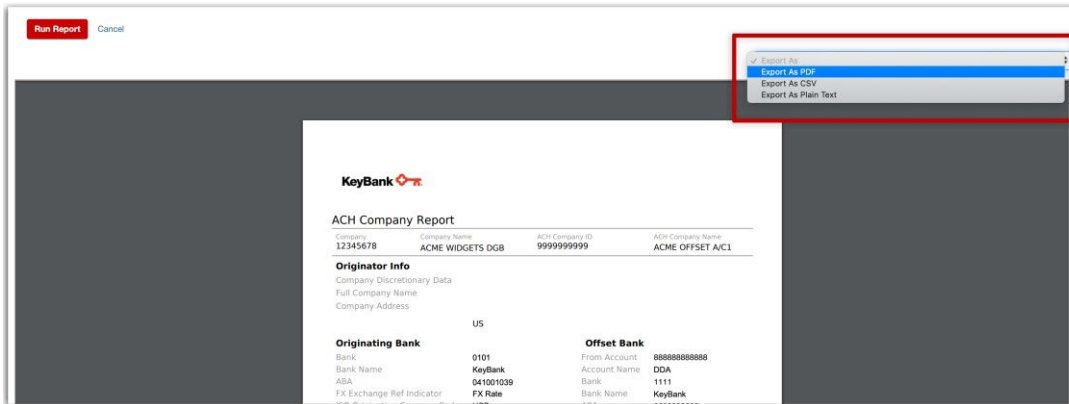

- For each of these reports, please select your desired criteria from the fields using the list or starting to type in the field. Fields with a red asterisk are required.
- Select **Run Report** to view your results.

- You may save this search criterion to your Reports Management widget by clicking the **Save this Report** checkbox.
- Then enter the desired name and description and click **Save**. The saved report will appear in the Report Management widget in alphabetical order. Find your report by the configuration name column.

- The report results will appear under the search criteria and may be using the **Export As** dropdown to the right. Export options are PDF, CSV or Plain Text. You may also print or save the report by using the modal buttons.

- The saved report will appear in the Report Management widget in alphabetical order. Find your report by the configuration name column.
- Views can be changed utilizing the drop-down box on the right and you may add/delete columns by clicking the gear icon.
- Click the Filter drop down to create a custom view by selecting the desired fields.
- Views may be printed or exported.
